

CENTRAL INTELLIGENCE AGENCY
Washington, D.C.

MEMORANDUM FOR: All Recipients of Subject Report

SUBJECT: Transmittal of Refinement of Coordinates of
Recommended UW Areas in CIA/RR-CR-116

REFERENCE: CIA/RR-CR-116, Recommended Unconventional-Warfare
Areas [redacted] dated October 1957

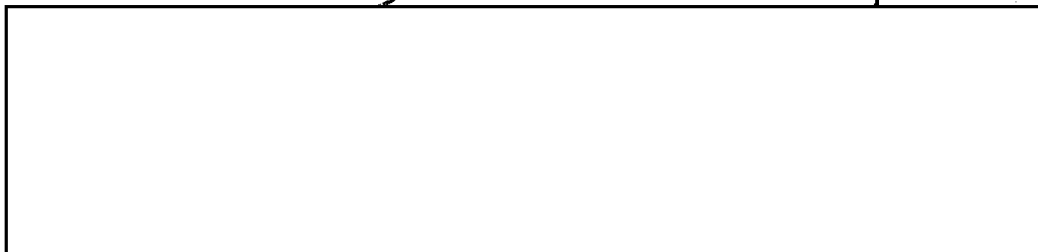

25X1

1. Coordinates of recommended UW areas [redacted] were given to the nearest 30 minutes in CIA/RR-CR-116. This amount of generalization was in accord with statements in this report which emphasized the relatively arbitrary and flexible character of the outer limits of each area as compared to the fixed nature of the areal cores. However, refinement of boundary coordinates has been requested as an aid to recipients not in possession of the attached maps. This report contains a sketch of each of the five recommended UW areas and provides coordinates to the nearest minute.
